

Record Sheet 1

Name: _____

Date: -----

Reading the Temperature

What is the temperature? _____

Do you think this temperature is hot or cold?

Record Sheet 2

Name: _____

Date: _____

What Is the Temperature?

What is the temperature? _____

Do you think this temperature is hot or cold?

Weather: Observations of Student Performance

STUDENT'S NAME:

Concepts

- Weather changes from day to day and week to week.
- Features of weather include cloud cover, precipitation, wind, and temperature.
- Tools used to measure different features of weather include wind scales, thermometers, and rain gauges.
- Meteorologists are scientists who study, observe, and record information about the weather and who use that information to forecast the weather.
- Weather affects the decisions people make about the clothing they will wear and about their outside activities.

Observations

Skills

- Observing the weather by using the senses.
- Discussing and recording information about weather features.
- Using simple tools to estimate wind speed and measure temperature and rainfall.
- Observing differences in types of clouds.
- Conducting experiments and drawing conclusions about appropriate clothing for different types of weather.
- Organizing weather data on graphs and long-term data collection charts.
- Interpreting and summarizing long-term weather data.
