

**Student Instructions for
Making a Model Thermometer**

1. Fold the shoelace in half. Mark this spot with the red crayon.

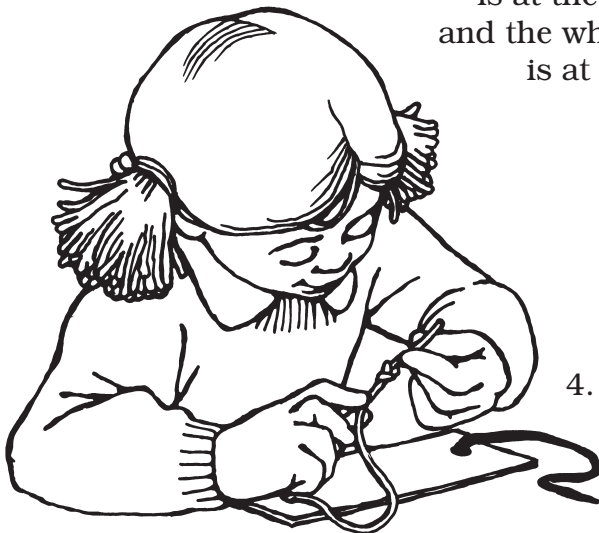

2. Color half of the shoelace red. Color both the front and back of this half of the shoelace.

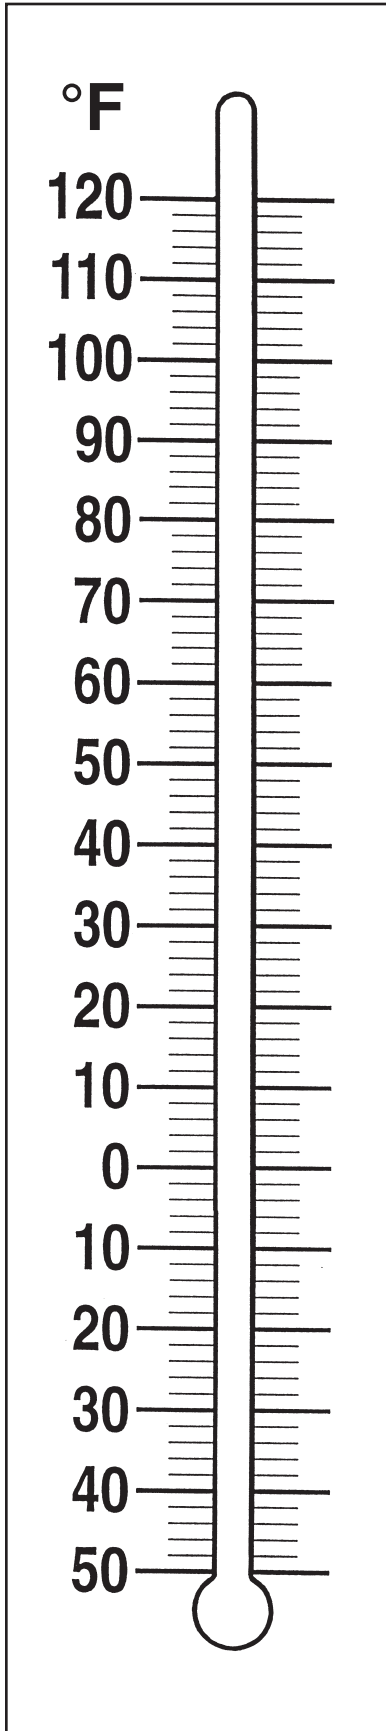

3. Put the shoelace through the holes at the top and bottom of the thermometer. Be sure that the red part is at the bottom and the white part is at the top.

4. Tie knots in the ends of the shoelace so it will not slip out of the holes.

Record Sheet 6-A

Name: _____

Date: _____

What Is the Temperature?

What is the temperature? _____ °F

Do you think this temperature is hot or cold?
